

Heartbeat of the Hickory

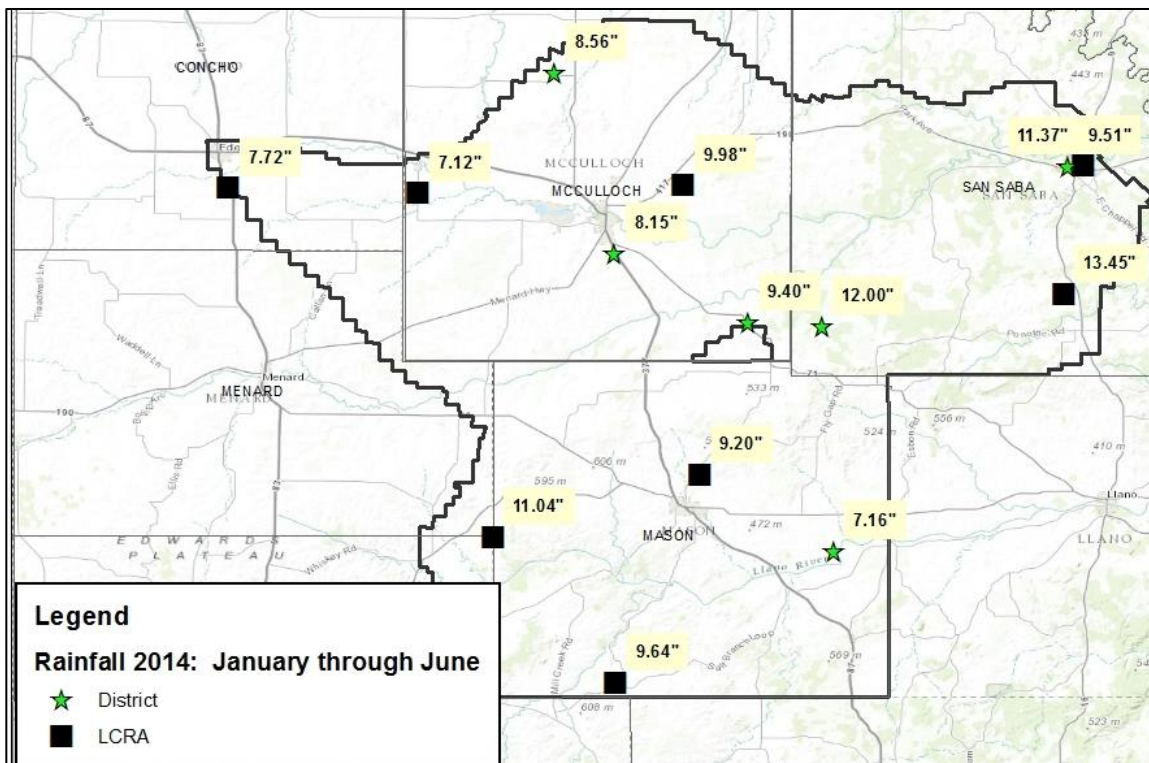

Summer 2014

Quarterly Newsletter of the Hickory Underground Water Conservation District No. 1

Summer Water Levels

Ronnie Moore, our lab/field tech, has finished summer water levels. He goes out to measure over 100 wells every six months. This summer the average change in the Hickory levels was down 1.6 feet on average. One well was down a little over 11 feet while another was up over 15 feet. The Ellenburger wells showed an average increase of 0.05 feet while Marble Falls were down an average of 0.30. One Lion Welge well was measured. It was down 4.7 feet. Visit our website and go to the water level page to see interactive water level maps. <http://hickoryuwcd.org/waterlevels.html>
